**CERTIFIED TECHNICAL SERVICES COMPLETES ALTERNATIVE ENERGY  
PLANT FABRICATION**

HOUSTON – May 15, 2008

Certified Technical Services (CTS) announced the completion of manufacturing for the first Biodiesel Fuel Plant for Kreido Biofuels, Inc. Certified Technical Services is a wholly owned subsidiary of Allied Technology.

The plant is due to be installed later this summer. Mike Delamore, Executive Vice President of CTS, said “We are very pleased to have assisted Kreido in the development and manufacturing of their first Biodiesel Plant. The plant design contains several innovative and unique processing technologies developed by Kreido which we believe will help them assume a leading role in the Biodiesel market”.

Certified Technical Services, L.P. is a leading industrial general contractor with state-of-the-art manufacturing facilities in Pasadena, Texas, where Certified fabricates process components for plants and engineered packaged systems for field installation. For more information on CTS, please visit our website at [www.certifiedway.com](http://www.certifiedway.com).

**About Allied Technology**

Based in Houston, TX, Allied Technology provides engineered process systems and field services from the well head to inside the refinery fence. We service the upstream, midstream and downstream segments in oil and gas production equipment and services. Our broad range of products and geographical locations positions Allied Technology as a process system specialist to the Oil & Gas service industry.
